

Coding with Crumble

Science - Design Technology – Maths - Computer Science

Training recognised by Redfern Electronics – the Crumble creator

Delivered by UK STEM in partnership with Mindsets. This online course covers:

- Use of the Crumble microcontrollers
- Creating amazing lighting displays for any celebration or mood
- Moving displays
- Low cost buggies and line followers
- Coding from basic to advanced

You will carry out the practical activities and leave the course confident to continue developing coding in your school.
